

Rabbit Anti-Liraglutide Polyclonal Antibody (CABT-Z391R)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Immunogen	Liraglutide linked to a carrier (KLH)
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	N/A
Purification	Affinity purified
Conjugate	Unconjugated
Applications	ELISA
Format	Liquid
Concentration	Lot specific
Size	100 µg, 500 µg
Buffer	0.01M PBS (pH 7.4) with 0.05% Proclin 300
Preservative	0.05% Proclin 300
Storage	-20°C or below.
Ship	Wet ice

BACKGROUND

Introduction

Liraglutide is a derivative of glucagon-like-peptide-1 (GLP-1) which binds to same receptor as GLP-1 and act as an agonist that stimulate insulin secretion. Brand names includes Victoza and Saxenda given to patients with diabetes or obesity.
